So, I just want to say that how does the SR-710 funding work out if you no longer include the lane expansion on Garvey Ave because I still strongly oppose the lane expansion on Garvey Ave because it would create too much traffic congestion there and it takes away on street parking as well. In terms of funding, you should include the funding on public transit on Monterey Pass Road because it's been three years since Metro Line 258 was moved away from Monterey Pass Road to Floral/Eastern and now people living near or work on Monterey Pass Road would have a hard time walking down to either Floral, Garvey, or Hellman to catch an alternative route to get around. The spirit bus service on Monterey Pass Road is so very inconvenient because Route 4 runs southbound on Monterey Pass Road only between Garvey and Davidson and using route 5 to get to Cal State LA takes a long time instead of short. The segment on Floral and Eastern is already served by East LA shuttle as well as Montebello Bus Lines route 10 which had extended from ELAC to CSULA via Eastern and Cesar Chavez since 11/5/2023. So, in closing I strongly urge all of you to tell Metro that line 258 should return back to Monterey Pass Road instead of Floral and Eastern because the current segment is duplicated with East LA shuttle which also runs on Floral and Eastern as well as Montebello Bus Lines route 10 which had already been extended to CSULA from ELAC via Eastern and Cesar Chavez since 11/5/2023 and so putting the line back on Monterey Pass Road would get to CSULA faster than the duplicated East LA shuttle and the Montebello 10 bus service.

Thank you very much for your time
