Dear Mayor Thomas Wong and City Councilmembers,

I am writing to urge the adoption of a resolution for an immediate and unconditional ceasefire in Monterey Park, aligning the city with other municipalities advocating for peace and an end to the crisis in Gaza, which has reached the level of genocide.

Our congressional representatives have not adequately responded to the needs expressed by their constituents regarding this issue. We look to you, our local government representatives, to take decisive and effective action.

The current crisis in Gaza is not just a conflict but a genocide, where over 34,262 lives, including more than 14,000 children, have been lost. Additionally, 1,139 people have been killed in Israel since October. The situation is further exacerbated by a worsening famine and disease, with 2 million Gazans experiencing catastrophic levels of hunger. Addressing this situation not only ties our local efforts to national concerns but also stresses the need for immediate action.

I propose that the title of the draft resolution be revised to read: "Supporting an 'Immediate' and Permanent Bilateral Ceasefire to the Humanitarian Crisis Impacting the Palestinian Territories of the West Bank, Gaza, and Israel." This title more accurately reflects the urgency and scope of the humanitarian crisis we are addressing.

The international community has recognized the severity of the situation, supporting a ceasefire through multiple UN votes, emphasizing its critical importance for the safe return of hostages, as urgently requested by the families of Israeli hostages. Furthermore, the ongoing violence and destruction inflicted upon Palestinians—targeting their homes, schools, and hospitals under the pretext of self-defense—are acts that constitute war crimes.

I implore you to adopt a strong, unconditional ceasefire resolution that reflects the dire urgency of the humanitarian crisis in Gaza. It is crucial that our resolution

includes the most accurate and up-to-date figures on the loss of life to fully convey the severity of the situation.

Sincerely,
Arielle Chung

Dear Mayor Thomas Wong and City Councilmembers,

I am a native of SGV from So. Pasadena, now residing in Pasadena. Too many people argue that city resolutions cannot have real impact, but collectively they do. With resolutions, our neighbors and representatives know where we stand and better understand the situation, and further puts pressure on our nation's decision-makers to make the right decisions.

Choosing inaction at this time, as had been the case at any and all points of the occupation of Palestine, is an emphasized choice sending the message that an entire people is undeserving of life. It is a choice that condones ethnic cleansing and genocide. We are indebted to Gaza, the people of the West Bank, the people of occupiers Palestine. Dear Mayor and City Council Members,

First, I want to thank you for your efforts in hearing us out. We understand that the topic of Palestine is a contentious one that many people do not want to address, which is why we, as your voters, are grateful that you are giving us the space for this humanitarian crisis. I urge you to vote YES on the upcoming Ceasefire Resolution. Monterey park should stand with other cities advocating for peace in Gaza, a region in dire need of our support. Pasadena, Alhambra, El-monte has passed a Ceasefire Declaration in addition to Montebello and Pomona. As residents of the SGV, we need to support our neighboring cities and demand a ceasefire to stop the genocide in Gaza. We are asking for peace in our community and for the world.

Monterey park City Council has a proud history of advocating for justice on issues of global and local significance. The ongoing crisis in Gaza, which has led to the tragic loss of 40,000+ lives, many of whom are women and children, amidst worsening famine and disease, demands our immediate attention. **This is not solely an international issue.** As City Council members, you must ensure that the anti-war and anti-genocide voice, regardless of background, is acknowledged and given due consideration. City Council members share constituents with their congressional delegation. Your [obligation](#), at the very least, is to resist Islamophobia, anti-Arab sentiment and antisemitism within the City of Monterey Park, a city that celebrates the diversity.

Many of the cities that refuse to issue any resolution for a ceasefire were quick to issue statements about their unwavering support of Israel. Should anti-war and anti-genocide advocates take that to mean an Israeli life is worth more than a Palestinian life? The ceasefire is critical for the safe return of hostages, supported by the [pleas of Israeli hostages' families](#). The international community, through repeated UN votes, recognizes the urgency of a ceasefire. Highlighting the gravity of the situation, the violence and destruction inflicted upon Palestinians and their homes, schools, and hospitals by Israeli forces, under the guise of self-defense, constitutes war crimes.

I implore you to act swiftly and courageously to pass the ceasefire resolution, echoing the urgency of the humanitarian crisis in Gaza. We are asking for peace.

Dear Council Members:

What can I say that you don't already know? We all have access to the same news sources. If you don't think there is a Genocide being committed in Gaza, try switching the word Gaza with Israel and see if your thinking changes. Please vote Yes for the resolution calling for an Immediate and Permanent Ceasefire in Gaza and the West Bank. To underscore the urgency, I copy the words of Dr. Mads Gilbert, Norwegian physician, who has worked extensively in Gaza.

"Today we witness the total Israeli destruction of the most important 700 bed hospital in Gaza, Al Shifa Medical Complex. It was established 78 years ago during the British Mandate, the name Al Shifa meaning "The House of Healing"; now turned into a "House of Death" by Israel and the US, burnt totally destroyed to rubble and turned into a graveyard of patients, medical staff, relatives and refugees. A massive symbol of heartless, cynical Israeli politics of colonial occupation with the goal of elimination of the Palestinian people, their social institutions and their lives. US, EU, UK governments stand shamed, complicit by their support for Israeli war crimes and atrocities against all humanity. Watch carefully the killing fields of Al Shifa, never ever forget the Gaza genocide, the perpetrators and the complicit powers. Dr. Mads" March 2024

I am writing to urge the adoption of a resolution for an immediate and unconditional ceasefire in Monterey Park, aligning the city with other municipalities advocating for peace and an end to the crisis in Gaza, which has reached the level of genocide.

Our congressional representatives have not adequately responded to the needs expressed by their constituents regarding this issue. We look to you, our local government representatives, to take decisive and effective action.

The current crisis in Gaza is not just a conflict but a genocide, where over 34,262 lives, including more than 14,000 children, have been lost. Additionally, 1,139 people have been killed in Israel since October. The situation is further exacerbated by a worsening famine and disease, with 2 million Gazans experiencing catastrophic levels of hunger. Addressing this situation not only ties our local efforts to national concerns but also stresses the need for immediate action.

I propose that the title of the draft resolution be revised to read: "Supporting an 'Immediate' and Permanent Bilateral Ceasefire to the Humanitarian Crisis Impacting the Palestinian Territories of the West Bank, Gaza, and Israel." This title more accurately reflects the urgency and scope of the humanitarian crisis we are addressing.

The international community has recognized the severity of the situation, supporting a ceasefire through multiple UN votes, emphasizing its critical importance for the safe return of hostages, as urgently requested by the families of Israeli hostages. Furthermore, the ongoing violence and destruction inflicted upon Palestinians—targeting their homes, schools, and hospitals under the pretext of self-defense—are acts that constitute war crimes.

I implore you to adopt a strong, unconditional ceasefire resolution that reflects the dire urgency of the humanitarian crisis in Gaza. It is crucial that our resolution includes the most accurate and up-to-date figures on the loss of life to fully convey the severity of the situation.

Sincerely,
Ame

Dear Mayor Thomas Wong and City Councilmembers,

My name is Chen Gu, a constituent of District #28 and I am writing to urge the adoption of a resolution for an immediate and unconditional ceasefire in Monterey Park, aligning the city with other municipalities advocating for peace and an end to the crisis in Gaza, which has reached the level of genocide.

I formerly worked in Monterey Park and as a resident of Alhambra, frequently visit Monterey Park. I love the city of Monterey Park and view it as a bastion of Asian American identity. As council members of this city, surely you understand the meaning of community and how important it is for us to support the freedom of communities everywhere, including those in Gaza and Palestine.

My city of Alhambra and neighboring cities of Montebello, Bell Gardens, Santa Ana, Long Beach, Pasadena and others have recently passed resolutions calling for a permanent ceasefire. I hope you listen to the people, your constituents, and follow suit. There is not a second to waste. Atrocities are being committed by Israel daily.

I am a teacher and one of my students, a Jewish 17 year old with family in Israel, came to me with tears in her eyes, saying she is pro Palestine and wants the genocide to stop. She had seen the truth of 76 years of brutal occupation, of malnourished babies without even the strength to cry, of an estimated 37 mothers being killed daily.

Our congressional representatives have not adequately responded to the needs expressed by their constituents regarding this issue. We look to you, our local government representatives, to take decisive and effective action.
