Re: Support Letter – 1977 Saturn Data Center Project

Dear Ms. Muñoz,

On behalf of Ironworkers Local 433, I respectfully submit this letter in strong support of the proposed data center project ("Project") located at 1977 Saturn Street in the City of Monterey Park ("City"). As a labor organization representing skilled construction workers, including in the San Gabriel Valley, we recognize the significant economic and workforce benefits this project will bring to the City.

The data center represents a substantial capital investment that will generate high-quality construction jobs, expand pathways for state-certified apprentices, and contribute to the region's long-term economic stability. Modern data centers are designed to meet advanced standards of energy efficiency, safety, and environmental performance—criteria that align with both city and statewide objectives.

We appreciate the project developer's commitment to responsible development practices and to engaging a highly trained and skilled construction workforce capable of delivering complex infrastructure to the highest standards. Based on our review, we believe this project will provide meaningful value to the community with limited impacts on local services.

For these reasons, Ironworkers Local 433 respectfully urges your approval of the Project. We look forward to continuing to partner with the City and project team to ensure local workers and residents benefit from this significant investment.

Sincerely,

Keith Harkey
Business Manager

Dear Ms. Muñoz,

I am writing on behalf of the UA Plumbers and Steamfitters Union, Local 398, to express our support for the proposed data center project (“Project”) located at 1977 Saturn Street in the City of Monterey Park (“City”). The Project represents a smart redevelopment for the City and creates many high-quality construction jobs for the members of Local 398. We are thankful that the developer is pursuing the Project in the City and has recognized the importance of trained and professional labor to build it.

Local 398 counts among its membership plumbers and steamfitters who are responsible for the installation of plumbing and piping systems that are integral to all types of projects in the region, including data centers. Local 398 recognizes that the Project is a critical component of redeveloping the Saturn Park area, which is largely vacant. This Project kickstarts economic opportunity for the City and the long-desired redevelopment of a vacant, underperforming parcel in the City. The Project provides substantial community and economic benefits for the City and region through increased property values and tax revenue, as well as the significant benefits of redeveloping a vacant property with a technologically-advanced data center project. Local 398 also appreciates that the applicant is developing the Project in an environmentally sensitive manner. This type of development not only benefits residents in the City and region, but also directly supports Local 398’s skilled workers and other skilled workers in the area. Therefore, on behalf of its members, Local 398 strongly supports the Project.

In closing, we urge the City to approve the Project at its earliest convenience. We look forward to the Project being built so it can deliver jobs to the region and economic benefits to the City.

Sincerely,

William “Bill” Steiner
Business Manager/ Financial Secretary- Treasurer

Re: Support Letter – 1977 Saturn Data Center Project

Dear Ms. Muñoz,

I am writing on behalf of the UA Sprinkler Fitters Union, Local 709 to express our strong support for the proposed data center project (“Project”) located at 1977 Saturn Street in the City of Monterey Park (“City”). The Project redevelops a long vacant parcel in Saturn Park, provides important economic development for the City, and creates many high-quality construction jobs for the skilled members of Local 709. Our trained and skilled members welcome the opportunity to work with the developer to create a landmark project in the City.

Local 709 comprises more than 1,000 skilled members, including journeymen, journeywomen, and apprentices. Our members accomplish the important task of installing fire protection systems in projects throughout the region, including in data centers. Our work is vital to safeguarding lives and property, which is why our members take such pride in their work. Our members also appreciate working on projects that will create substantial benefits for the City and region. The applicant and the City have completed a comprehensive environmental review of the Project that demonstrates the Project does not have significant environmental impacts, and that the resulting development will revitalize a vacant site with a state-of-the-art data center. This type of development and investment benefits the residents and communities in the region by increasing property values and tax revenue. On behalf of its members, and in recognition of the applicant’s support of working families, Local 709 strongly supports the Project.

We therefore ask that the City approve the Project. We look forward to the Project being built so it can deliver jobs to the region and lasting economic benefits to the City.

Sincerely,

Roy Afusia

Dear Ms. Muñoz,

This letter is written on behalf of the UA Pipefitters Union, Local 250. We wish to express our enthusiastic support for the data center project ("Project") located at 1977 Saturn Street in the City of Monterey Park ("City") that is under consideration by the City Council. The Project provides important economic development for the City and creates many high-quality construction jobs, including for the members of Local 250. We appreciate the developer's partnership with the trained and skilled labor force of Local 250 and other trades to develop the Project.

Local 250 represents skilled labor in the refrigeration, welding, and steamfitting trades. A trained and professional workforce in these trades is particularly important for data center projects, which are technologically advanced. The high-quality jobs created by construction of the Project will directly support working families in the region and the City. We also recognize that the Project will provide important community benefits for the neighborhood, including a new park, and provide the City with substantial economic benefits that enhance the general fund and thereby the City's ability to provide a wide array of City services. This type of economic development and investment has a beneficial effect on the residents and communities in the region, especially when the Project is developed in an environmentally sensitive manner, as the applicant has committed to here. Therefore, on behalf of its members, Local 250 strongly supports the Project.

In closing, we respectfully request that the City approve the Project. We look forward to the realization of the many positive benefits of the Project, including high-quality jobs.

Sincerely,

Ben Clayton
Business Manager/ Financial Secretary- Treasurer

Re: Support Letter – 1977 Saturn Data Center Project

Dear Ms. Muñoz:

I am writing on behalf of the International Brotherhood of Electrical Workers Union, Local 11, the dynamic and progressive voice of the electrical construction industry in the Los Angeles area. We write to express our whole-hearted support for the proposed data center project ("Project") located at 1977 Saturn Street in the City of Monterey Park ("City"). The Project will provide important economic development for the City and create many high-quality construction jobs for the members of Local 11.

Local 11 represents over 12,000 electricians and working men and women in other trades in the electrical industry in the region. The work we do is central to the success of every project, and especially for high-technology projects like data centers. We appreciate the applicant's recognition of the importance of a trained and professionalized workforce, and we applaud its commitment to use Local 11's skilled laborers during construction. By doing so, the Project will support working families throughout the region. We also appreciate that operation of the Project will create substantial economic benefits for the City and region through increased property values, enhanced tax revenue, and redevelopment with an innovative data center the City and its residents can be proud of. Finally, we are grateful that the applicant is approaching the Project in an environmentally sensitive manner. Therefore, on behalf of its members, Local 11 proudly supports the Project.

In closing, we respectfully request that the City approve the Project so it can deliver high-quality jobs to the region and important economic benefits to the City.

Sincerely,

Robert Corona

Re: Support Letter – 1977 Saturn Data Center Project

Dear Ms. Muñoz,

I am writing on behalf of the District Council of Ironworkers (“DCIW”) to express our enthusiastic support for the proposed data center project (“Project”) located at 1977 Saturn Street in the City of Monterey Park (“City”). The Project provides important economic development for the City and creates many high-quality construction jobs for the members of DCIW. We appreciate the opportunity to partner with the applicant to develop an innovative and environmentally sensitive data center in the City.

DCIW’s members have been instrumental in the construction of the ironwork for major infrastructure projects throughout California. We applaud the applicant for recognizing that the use of DCIW’s trained and professionalized workforce will ensure that the Project is delivered safely and on schedule. We also appreciate the applicant’s support of the working families of DCIW in the region and the City through the creation of these jobs. DCIW understands that operation of the Project will benefit the residents and communities in the region by increasing property values, enhancing tax revenue, and redeveloping a vacant site with a new innovative technology data center project. Therefore, on behalf of its members throughout California, DCIW strongly supports the Project.

In closing, we ask that the City approve the Project at its earliest convenience. We look forward to the Project being built so it can deliver jobs to the region and reoccurring economic benefits to the City.

Sincerely,

David S. Osborne

Re: Support Letter – 1977 Saturn Data Center Project

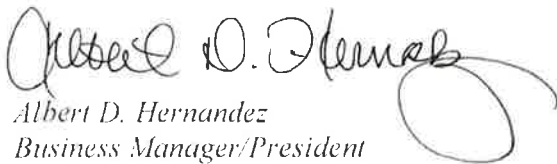

Dear Ms. Muñoz,

I hope this letter finds you well. The Sheet Metal Workers' Local Union 105 writes to express its strong support for the proposed data center project ("Project") located at 1977 Saturn Street in the City of Monterey Park ("City"). The Project will provide important economic development for the City and create many high-quality construction jobs for the members of Local 105. We commend and thank the developer for partnering with Local 105, and other construction trades, to build this innovative Project, which will have many benefits for the City and region.

Local 105's trained and skilled members pride themselves on delivering superior results in the sheet metal trade. We appreciate that the applicant has recognized the importance of using such skilled labor during construction and its support of working families in the region and City through the creation of high-quality jobs for Local 105 members. We also appreciate that the applicant is approaching the Project in an environmentally sensitive way. Once the Project is complete, we are confident that it will create substantial, reoccurring benefits for the City and region through increased property values, enhanced tax revenue, and the activation of an underutilized site with a modern and high-technology use. This type of economic development and investment has a beneficial effect on the residents and communities in the region. Therefore, on behalf of its members, Local 105 strongly supports the Project.

In closing, we ask that the City approve the Project. We look forward to the Project being built so it can deliver both high-quality jobs and economic benefits to the City and the region.

Sincerely,

Albert D. Hernandez
Business Manager/President
