| Extent of Alteration | % of Building Valuation as if New Construction¹ | Definition of the Extent of Alteration^{2,4} |
|-----------------------------|---|--|
| Minor | 20% | Cosmetic work - refinishing walls, ceilings, floors; minor mechanical, electrical, plumbing; only incidental structural work. |
| Medium | 40% | Addition or removal of some walls or extensive construction of partitions; projects with more involved mechanical, electrical, plumbing work, such as residential additions or renovations of bathrooms and kitchens, commercial replacement of many existing walls, ceilings, floors; replacement of substantial portions of the glazing systems if a major portion of the project; medium projects may include minor changes to the exterior envelope or structural systems. |
| Major | 60% | Addition or demolition of many walls; installation of new glazing systems in conjunction with major remodeling; upgrading of structural systems in some portions to receive increased loads in limited areas. Significant upgrades to mechanical, electrical or plumbing systems in conjunction with significant refinishing of surfaces. |
| Full ³ | 80% | Demolition of all non-structural portions leaving a structural shell; installation of new or substantial replacement of electrical, mechanical systems in conjunction with significant changes in room configuration; significant structural upgrading to meet seismic requirements, or other substantial structural renovation, extensive structural repair and establishing occupancy or use. |

¹Determine the valuation of new construction by using the Building Valuation Data Table.

²The extent of alteration includes one or more of the elements in the definition. The floor area affected shall be calculated on the entire areas of the rooms where alterations are proposed. If a project has areas for which it is reasonable to distinguish as being of different categories, it is appropriate to calculate the area separately to develop the value.

³Applications where the scope of work exceeds the description for "Full" in the "Remodel Valuation Table" must be considered a rebuild and will be required to pay full fees.

⁴Valuations beyond the general scope shall be determined by Building Staff.
